

iPower

Learning Solutions

BENEFITS

- Powerful – combines videoconferencing, the PC, and the Internet into one solution
- Productive – share resources and deliver information on rapidly changing topics
- Leverage resources – provide powerful access to resources for at-risk or special needs students, and geographically dispersed populations
- Extend the available curriculum – allows more education to be offered to a wider community
- Bring real world practice into the classroom – link industry to education
- Professional development – use for staff professional development
- Eliminate the costs associated with in-house integration
- Mobile – systems can be placed where and when they're needed

iPOWER LEARNING SOLUTIONS OFFER EDUCATIONAL ORGANIZATIONS AND CORPORATE LEARNING CENTERS THE ABILITY TO REACH MORE STUDENTS, OFFER MORE CLASSES AND PROVIDE A HIGHER-QUALITY DISTANCE LEARNING EXPERIENCE WHILE MAXIMIZING CLASSROOM EFFECTIVENESS.

Designed for the rapidly escalating requirement of distance learning today. With Learning Solutions, technology is simplified and costs are reduced. Students interact in classroom sessions and easily share ideas and feedback. Educators are more powerful, can offer more classes and reach more students while maximizing the effectiveness of their lessons and harnessing a world of resources.

The Mobile Professor – A fully integrated, mobile distance learning center. Compact yet powerful, this iPower 600 Series solution is designed for small remote learning environments where only students are located. Students can fully participate in the lesson by not only seeing and hearing the professor, but by sharing data.

The Traditional Classroom Pro – Helping teachers enhance their curriculum. Multiple display units help the teacher to expand and introduce new material into every lesson plan. With an iPower 900 Series based solution, you can view both the students at the far end and the content you are discussing, never losing site of either. Enhance the student's experience by sharing the entire lesson content including videotapes, worksheets and diagrams.

Enhanced Classroom Pro – Incorporating the sophisticated multimedia needs of today's educational and business teaching environments. Designed to be integrated into larger classrooms, this iPower 900 Series based solution includes monitors, cameras, push-to-talk microphones, an interactive whiteboard and other powerful devices providing the highest functionality and quality available. Delivering intuitive, media-rich remote communications has never been easier.

Solutions. Polycom's iPower Learning Solutions are meeting the needs of distance learning environments around the world. Mobile, compact, and collaboration rich, these solutions are tailored to meet distance learning environments and present a significant enhancement in the way organizations conduct remote communications.

POLYCOM®

DISTANCE LEARNING PACKAGES

Mobile Professor

Specifically designed to serve as the far-end in a distance learning network, this compact unit is ideal for use in K-12 education and in corporate training to remote branch offices. Easy to own and simple to use, this iPower 600 Series PC-based system makes distance learning a reality.

Package Model Number

- CP-2433-MP

CODEC

- iPower 680 QBRIS

Interface(s)

- ISDN Network Interface

Display(s)

- 27"(69cm) Multimedia Monitor

Stand(s)

- 42"(107cm) Display Stand w/lockable doors

Collaboration Tools(s)

- Electronic Whiteboard

Traditional Classroom Pro

A powerful distance learning station designed to provide the instructor with a rich choice of tools to bring any curriculum to life, this unit is well suited to be the hub of a distance learning network. With its dual displays and flexible iPower 900 Series PC-based system, it offers the best in rich media education for K-12, college and business applications.

Package Model Number

- CP-2433-TC

CODEC

- iPower 970

Display(s)

- 34"(86cm) Content Display
- 21"(53cm) Content Display
- (2) 34"(86cm) People Display

Stand(s)

- 42"(107cm) Display Stand w/lockable doors
 - (2) 42"(107cm) Display Stand less doors
- Collaboration Tools(s)
- Electronic Whiteboard

Accessories

- VCR
- PT70 Camera-Auxiliary Room
- World Speaker
- Video Distribution Amplifier Kit/Cables/Misc. Hardware

Enhanced Classroom Pro

An advanced complete learning solution designed to be integrated into the larger classroom or training center. With multiple controls, cameras, microphones and communication tools and options, this iPower 900 Series PC-based system takes full advantage of distance learning technology to allow complete interaction, from simple communication to sharing complex data and whiteboard concepts.

Package Model Number

- CP-2433-ECP

CODEC

- iPower 970

Display(s)

- (2) 34"(86cm) People Display
- XGA Projector

Stand(s)

- 42"(107cm) Display Stand w/lockable doors
- 42"(107cm) Display Stand less doors
- IBOARD Stand

Collaboration Tools(s)

- Interactive Whiteboard

Microphone(s)

- Push-to-Talk Microphone, (8) Microphone Camera Controller
- PictureTel Power Microphone, Audio Interface
- Wireless Lavalier Microphone

Accessories

- VCR
- PT70 Camera-Auxiliary Room
- World Speaker
- Video Distribution Amplifier Kit/Cables/Misc. Hardware
- Projector Ceiling Mount
- Projector Ceiling Pipe Extension
